Featured Research

[Problem gambling - Formative investigation of the links between gambling \(including problem gambling\) and crime in New Zealand](#)

Bellringer, M., Abbott, M., Coombes, R., Brown, R., McKenna, B., Dyllal, L., & Rossen, F. (2009).

This project was a formative investigation of the link between gambling (including problem gambling) and crime in New Zealand. Problem gambling has been linked with a range of crimes. The purpose of this project was to develop a better understanding of the nature of those links with particular reference to unreported crime and the nature of the resulting harms experienced by individuals, families/whanau and communities. It is anticipated that the results from the project will be informative for service and policy development, the direction of research, and the development of methodologies for monitoring gambling harm in New Zealand.

## Call for Papers, Grant Proposals, RFPs, and Nominations

### [Call for Papers: National Association for Gambling Studies 19th Annual Conference](#)

Prospective presenters are invited to submit proposals to present at the 19th Annual National Association for Gambling Studies Conference. The conferences attract and welcome national and international presentations from the full spectrum of speakers, ranging from internationally renowned experts to students giving their first academic presentation. The aim of the conference is to be an international forum for discussion on all areas of gambling research.

Deadline for submissions is July 31st, 2009.
